DETAILED ACTION

This action is in response to Amendment filed October 26, 2004. Claim 15 has been amended as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed October 26, 2004, with respect to claims 15, 97, 99 and 102 have been fully considered and are persuasive. The rejection of claims 15, 97, 99 and 102 has been withdrawn.

Allowable Subject Matter

Claims 1-6,8-10, 15, 32-34, 41, 97, 99 and 102 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach or suggest two total non-axisymmetric reflection surfaces in an optical system to bring light into focus on an image wherein the reflection surfaces are arranged eccentrically and each of the reflection surfaces is a free form surface.

Art Unit: 2872

Claims 2-6,8-10,32-34 and 41 depend from claim 1 and are allowable for the same reasons.

Regarding claim 15, the prior art of record fails to teach or suggest a reflective optical device for brining the light fluxes from an object into focus on an image surface wherein the reflection surfaces are arranged eccentrically and the second reflection surface from the object side as seen from the incident side of the light fluxes is concave in a cross-sectional shape taken in the vicinity of its vertex along a plane containing vertices of the reflection surface and is convex in a cross-sectional shape taken in a direction perpendicular to the plane.

Claims 97, 99 and 102 depend from claim 15 and are allowable for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
